

Adrienne Warden

Web/UX Designer

About Me

My passion is building clean, scalable, and responsive web sites. Using best web practices, CSS frameworks, web builders and JS libraries. My goal is to create sites that provide a positive user experience.

Primary Skills

HTML/CSS/JavaScript
Responsive Layouts
Cross-Browser Compliance
CSS Frameworks
WordPress/Web Builders
Accessibility/Semantics
Mockups/Prototyping

PROFESSIONAL SUMMARY

I am a reliable Web/UX Designer with a strong work ethic and user-centric design philosophy. An adept multitasker capable of following established design systems, as well as create and repair projects to completion. Able to function well independently with little to no supervision or in coordination with a professional team.

TRAINING

Google UX Professional Certification

March 2021 - Present

A 7-part certification in foundational concepts in UX design, such as user-centered design, the design process, accessibility, and equity-focused design. Completed course 5 in October 2021.

Responsive Design

June 2018

Focused on languages that developers use to build webpages: HTML for content, and CSS, CSS variables, best practices for accessibility by building a web form, cross browser functionality, Flexbox and CSS Grid.

CSS Essentials 1, 2 and 3

October 2017

Training in advanced selectors, when to use the float, display, and position properties, CSS browser developer tools, debugging your front-end code, mobile-first approach, grids, flexbox, animation, transitions, and accessibility.

PROJECTS

If I Did That

[Perry Associates Real Estate](#)

"If I Did That" is my way of putting into practice my design and UX training. The focus of this project was controlling the search.

View [project details](#) – a React app page.

Apps

[JavaScript Apps](#)

In today's market, if you cannot build an App, you may not be a web designer.

Profiles

[Carpentier CV](#)

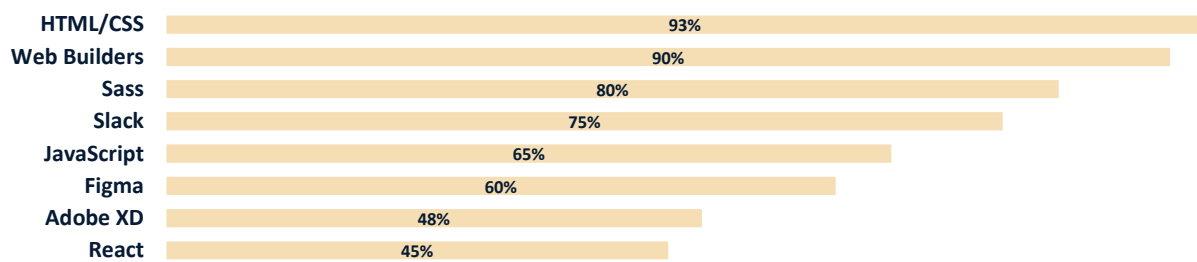

A CV that shows cases of my JavaScript skills. Info icons show alternate element layouts. This page was built using HTML, CSS and JavaScript.

E-commerce

[Man With A Van](#)

This is a small business website. The goal was to max out as many free resources as possible. There are two versions: a one page website and a [multi-page](#) website.

SKILLS

References furnished upon request.

understanding of HTML, CSS , and JavaScript (basic jQuery)

knowledge of design and visual principles, such as layout, typography, and color

comprehensive knowledge of responsive web design and cross-browser development

Track record of designing flows and wireframes with a strong bias towards user-centric design
